

## The Leader in Truly Ergonomic Furniture

TCT NANOTEC has manufactured quality furniture in Taiwan for 50 years. We always took the next step in manufacturing truly ergonomic products for daily use.

We make use of all of our experience to maintain good health and have designed our furniture based upon recommendations we have found in reports and studies done by various doctors and organizations devoted to promoting good physical health. We have also searched the world over to provide only the best quality materials possible to be used on all of our products.

TCT has not only focused on adults but also on children as it is critical to achieve healthy growth of young bodies that they also be able to move when working and playing at a desk for hours. So we have developed products that are adaptable for both adults and kids. We firmly believe TCT designs and manufactures furniture that will help children grow with less strain on their young bodies and products that will help maintain good health for adults as well.

您，可能知道大將作集團，也聽過大將作家具，不是因為大將作在台灣已50年。而是因為大將作家具在人因工程學界的努力貢獻與對產品設計的堅持。

下一個姿勢永遠是最健康的姿勢，長久以來人們對健康的高度重視及科技的廣泛鑽研，衍生出各種符合“人體工學”規範的產品，在市場上頗受消費者喜愛與認同。隨著亞洲競爭力突飛猛進的今日，孩子們在書桌與使用電腦的時間日益增加。無法符合身材的書桌椅與超時的工作，也讓快速成長的孩子們健康亮起紅燈。

大將作 Kid2Youth 與亞洲脊椎保護協會，針對兒童的體態發育進行研究，開發出一系列符合兒童使用的動態成長桌，確保兒童在成長的過程保持正確學習姿勢，改善肌肉與關節過早病變可能。大將作 Kid2Youth 是您呵護孩子的心，也是寶貝快樂學習健康成長的最好夥伴。
